

# Pervious Concrete Contractor Certification Program

April 22, 2010

## APPLICATION FOR REGISTRATION

The **Maryland Ready Mix Concrete Association** in conjunction with the National Ready Mix Concrete Association is pleased to announce a **Pervious Concrete Contractor Certification Program and Demonstration**. This program only includes a 90 minute review course and a written examination; therefore all applicants are required to “self-study” the workbook (**NRMCA Publication #2PPCRT: Text Reference: Pervious Concrete Contractor Certification**).

This class is for **Technician Certification only**.

(Technician Certification is the first level. Installer or Craftsman Certification levels require experience, passing a performance exam and possession of a current ACI Flatwork Technician Certification).

As outlined in the workbook, this program requires knowledge in the following areas of concrete construction:

- |  |   |
|--|---|
| 1. Basic concrete technology                         | 4. General design principles of pervious concrete pavements |
| 2. Pervious concrete materials and mix proportioning | 5. Pervious concrete construction                           |
| 3. Proper use of tools and equipment                 | 6. Maintenance and troubleshooting                          |

-----
